

ARTUR ALVES SANTOS

Full-Stack Developer | Systems Analyst | Technical Support

Itaquaquecetuba, SP, Brazil | (11) 94057-2858 | arturalvessantos2@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full-Stack Developer and Systems Analyst with a degree in **Systems Analysis and Development** and experience in web and SaaS applications, technical support, API integrations, and databases. Hands-on experience with React, Next.js, TypeScript, Node.js, PostgreSQL, Supabase, SQL, and Git. Additional experience in troubleshooting, log analysis, software implementation, testing, and deployment.

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, SQL, Python

Front-End: React, Next.js, HTML5, CSS3, Tailwind CSS

Back-End: Node.js, tRPC, REST APIs, Drizzle ORM

Databases/BaaS: PostgreSQL, Supabase

Tools: Git, GitHub, Docker, Vercel, n8n

PROFESSIONAL EXPERIENCE

Core & Patch - Co-founder & Full-Stack Developer

Jan 2025 - Present

- Planned and developed **4 digital solutions**, including an e-commerce platform, a clinical management SaaS, an internal system, and a lightweight POS system, working from **requirements gathering through deployment**.
- Deployed **JV Store to production for a real client**, developing authentication, an admin dashboard, purchasing flow, and management of more than **200 products** with inventory updates.
- Developed **RegiFlex**, a multi-tenant SaaS with more than **15 modules** (React/TypeScript, tRPC, Drizzle ORM, PostgreSQL/Supabase, Stripe, Resend), featuring clinic and operational-session isolation, patient queues, QR Code check-in, token-based tracking, role-based access control (RBAC), billing, and an admin dashboard.

CI Informática

May 2025 - Aug 2026

Junior Technical Support Analyst - Jun 2026 - Aug 2026 | Technical Assistant - Sep 2025 - May 2026 | IT Intern - May 2025 - Aug 2025

- Earned **two promotions** during my tenure, progressing from IT Intern to Junior Technical Support Analyst.
- Handled approximately **250-300 support tickets per month** in an operation serving nearly **800 clients** through phone, WhatsApp, ticketing systems, and remote access.
- Maintained approximately a **90% resolution rate without escalation to Level 2 support**, using troubleshooting, log analysis, SQL, and database investigation.
- Supported Controle na Mão, SWFast, Connect Store, and Delivery VIP, while also performing implementations, testing in a separate environment, and user training.
- Developed an internal application to automate Windows and internal-system adjustments in scenarios involving performance degradation and recurring failures.

PROJECTS

RegiFlex - React | TypeScript | tRPC | Drizzle ORM | PostgreSQL | Supabase | Stripe

Multi-tenant architecture with clinic-level data isolation, role-based access control (RBAC), operational queues and QR Code check-in, Stripe and Resend integrations, and automated testing with Vitest. Live at appregiflex.com.br.

JV Store - Next.js | TypeScript | Tailwind CSS

Production e-commerce platform built for a real client, featuring authentication, an admin dashboard, purchasing flow, and a catalog of more than **200 products** with automatic inventory updates. jvstore.com.br

EDUCATION

Associate Degree in Systems Analysis and Development - UniPiaget | Completed in 2026

LANGUAGES

English: Technical documentation reading and basic communication. | **Portuguese:** Native.
